

Hollingwood Primary School

Child Protection and Safeguarding Policy 2024-25

This Child Protection and Safeguarding Policy will be reviewed by the Senior Designated Safeguarding Lead *Chris Stewart Headteacher* on a regular basis to ensure it remains current and incorporates all revisions made to local or national safeguarding guidance. This policy will be fully reviewed as a minimum once a year during the autumn term, provided to the *Governing Body* for approval and signed off at the first autumn term meeting.

Date of last review: 2nd September 2024

Date of next review: September 2025

Review date	By whom	Summary of changes made	Date ratified by governors or trustees	Date implemented
September 2024	Chris Stewart	<ul style="list-style-type: none"> 2024 changes to KSCIE 		4.9.24

Section 1: Introduction

This child protection/safeguarding policy outlines how the school/college will safeguard and promote children's welfare to keep our learners safe from abuse, neglect, and exploitation.

The policy applies to all adults, including volunteers, governors/trustees, supply staff and contractors working in or on behalf of the setting.

Safeguarding and promoting the welfare of children is defined as:

- Protecting children from maltreatment
- Preventing the impairment of children's mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care, and
- Taking action to enable all children to achieve the best outcomes

Children includes everyone under the age of 18.

We help to keep children safe by:

- Providing safe environments, with secure access, where children can learn and develop
- Acting in the best interests of children to protect them online and offline, including when they are receiving remote education
- Identifying children who may need early help, and who are at risk of harm or have been harmed. This can include, but is not limited to, neglect, abuse (including by other children), grooming or exploitation
- Taking timely and appropriate safeguarding action for children who need extra help or who may be suffering, or likely to suffer, harm. This includes, if required, referring in a timely way to those who have the expertise to help
- Using safe recruitment processes and managing allegations that may meet the harm threshold and allegations/concerns that do not meet the harm threshold, referred to as low-level concerns

We will ensure that parents/carers and our partner agencies are aware of our child protection/ safeguarding policy by ensuring that it is on the school website, displays around the schools, parent meetings, initial meetings with new children joining our school.

The school website will also have information about how parents/children/other agencies can contact the designated safeguarding lead and their deputy/ies and include their availability during out of school hours and school holidays.

Safeguarding and child protection policy statement

Hollingwood Primary School operates a whole school approach and ethos to safeguarding and protecting children. Where safeguarding is concerned, we maintain an attitude of *"it could happen here"*. We recognise that everyone in the school has a role to play to keep children safe; this includes identifying concerns, sharing information, and taking prompt action. Safeguarding and child protection is incorporated in all relevant aspects of processes and policy development. All systems, processes and policies operate with the best interests of a child at their centre.

We ensure that all children are safeguarded while on or off school premises and are proactive about anticipating and managing risks that children face in the wider community and online. To support this the school assesses the risks and issues in the wider community when considering the well-being and safety of its learners. Due to the context of our school, our children may be at greater risk of witnessing domestic violence, radicalisation to right wing extremism, witnessing substance abuse and mental health. These contextual risks are supported by in-school data as well as information provided by the Local Authority on Chesterfield as a whole. Our location is close to the M1 so we are vigilant regarding county lines.

To protect our learners, we have a Prevent action plan/risk assessment and are part of the Stopping Domestic Abuse Together (SDAT) Operation Encompass initiative. Teaching across all subjects, especially

PSED, PSHE, RSE, events and daily assemblies promote taking action to promote the safety and welfare of all the children we help the children to develop the protective behaviours they need to know in order to better understand that people and the world around them, knowing where they can see advice, help and support. Children are taught on line safety, about protected characteristics, British values, keeping themselves safe e.g PANTS rule with NSPCC, in addition the children are taught about healthy relationships. At Hollingwood we work closely with partner agencies such as Police, NSPCC, Railway safety and water safety.

The school recognises we have an important role to play in multi-agency safeguarding arrangements and contributes to multi-agency working as set out in [Working Together to Safeguard Children](#) (2023). As a relevant agency, the school understands its role within local safeguarding arrangements and operates in accordance with the [Derby and Derbyshire Safeguarding Children multi-agency procedures](#), including the local criteria for action (known as the [Threshold document](#)) and local protocols for assessment in [Derby](#) and [Derbyshire](#). The school is also aware of and implements any local learning where appropriate, such as those as outlined in DDSCP Briefing note: [safeguarding school age children and learning from case reviews](#) and other DDSCP briefing notes located in the multi-agency safeguarding children procedures [document library](#). Hollingwood Primary School works in partnership with the Derby City and Derbyshire Safeguarding Children partnership and follow relevant local arrangements. We work closely with other multi agencies to support vulnerable children. We liaise and work closely with school health and school doctors, CAHMS and have our own ELSA (Emotional literacy support assistants) to support children with their emotional wellbeing and mental health. We work with charitable / voluntary organisations such as the ELM foundation for families involved with Domestic violence. Hollingwood work with the Early help team and local authority children's services e.g early help team and social care. This may be by holding meetings in schools, taking part in partnership forums, partnership meetings or for hosting meetings for individual children and families.

Context

This policy enables Hollingwood Primary School to carry out our functions to safeguard and promote the welfare of children and must be read alongside key guidance:

- Department for Education's [statutory guidance](#) publications for schools and local authorities, including:
 - [Working Together to Safeguard Children](#) (2023)
 - [Keeping children Safe in Education](#) (2024)
 - [Designated teacher for looked-after and previously looked-after children](#) (2018)
- [Human Rights Act](#) (1998) and [Equality Act](#) (2010), including the Public Sector Equality Duty
- [Prevent Duty Guidance](#) (2015)
- [Derby and Derbyshire Multi-agency Safeguarding Children procedures](#)

Safeguarding is not just about protecting children from deliberate harm, neglect, or failure to act, it relates to broader aspects of care and education. This policy therefore complements and supports a range of other school/college policies, such as:

- Children's health and safety and well-being, including their mental health
- Behaviour policy, including how we engage learners struggling to engage in school, mental health and behaviour, acceptable and non-acceptable behaviours, how we prevent and respond to bullying including cyber bullying, prejudiced based and discriminatory bullying and child-on-child abuse. This policy also outlines the school/college's screening, searching, and confiscating powers and how they will be used safely, proportionately, and appropriately, including police strip searches
- Reduced timetables, suspension and permanent exclusion
- Use of reasonable force/physical intervention, including the increased vulnerability of children with special education needs (SEN) or disabilities and equality duties
- School attendance, including children who runaway or go missing from education, home, or care
- Meeting the needs of pupils with medical conditions
- Providing first aid
- Educational visits
- Intimate care and emotional well-being
- Online safety, including use of mobile and smart technology, online safety at school and at home and other associated issues, including sharing nudes and semi-nudes, use of pupil mobile phones in

school, appropriate filtering and monitoring and how children can be kept safe from terrorist and extremist materials

- Safer recruitment and selection, including single central record
- Staff behaviour (code of conduct), including low level concerns, managing allegations against staff, including supply staff, contractors and volunteers incorporating 'duty to refer' and whistleblowing, acceptable use of technologies/mobile devices, staff/learner relationships and communications, including the use of social media
- School/college security and visitors
- Policy/agreement for visiting speakers
- SEND annual information report
- Relationships education (RE)/relationships and sex education (RSE) and health education (physical and mental well-being)
- Communications
- Complaints procedure
- Information sharing

Section 2: What is abuse?

Abuse is a form of maltreatment of a child which may be caused by an adult, adults or by another child or children inflicting harm or by failing to prevent harm. The abuse can be physical, sexual, neglect or emotional, including witnessing the ill treatment of others, such as domestic abuse. Children can be at risk of abuse inside and outside of their home, in their community, inside and outside the school/college and online.

Safeguarding issues can put children at of risk harm. Behaviours linked to drug taking and or alcohol misuse, deliberately missing education, serious violence (including county lines), radicalisation, consensual/non-consensual sharing of nude and semi-nude images can be signs that children are at risk. Abuse, neglect, and safeguarding issues are rarely stand-alone events; in most cases multiple issues will overlap with one another.

Safeguarding action may be needed to protect children from the following risks, which include abuse perpetrated by other children as well as by adults:

- Any concerns that a child has suffered or is at risk of suffering physical abuse, sexual abuse, emotional abuse, or neglect
- Bullying, including online bullying and prejudice-based bullying, racist, disability and homophobic or transphobic abuse
- Gender-based violence/violence against women and girls
- Sexual harassment, online sexual abuse, and sexual violence between children. Online abuse can include sending abusive, harassing, and misogynistic or misandrist messages; sharing nude and semi-nude images and videos; and coercing others to make and share sexual imagery
- Radicalisation and/or extremist behaviour
- Child sexual exploitation and child criminal exploitation, including county lines. This is known locally as child at risk of exploitation or 'CRE'
- Risks linked to using technology and social media, including online bullying; the risks of being groomed online for exploitation or radicalisation; and risks of accessing and generating inappropriate content, for example youth produced sexual imagery
- Abuse within intimate personal relationships between children (sometimes known as 'teenage relationship' abuse)
- Upskirting¹
- Substance misuse – drugs and alcohol
- Gang activity and serious violence, particularly affecting young males who have been excluded, have experienced trauma and have been involved in offending
- Domestic abuse
- Forced marriage, female genital mutilation and so-called 'honour-based' violence
- Children with Perplexing Presentations (PP) in whom illness is fabricated or induced (FII)
- Homelessness
- Other issues not listed here but that pose a risk to children

Indicators of abuse and neglect

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

¹ Upskirting is taking a picture of someone's genitals or buttocks under their clothing without them knowing, either for sexual gratification or in order to humiliate or distress the individual. This is a criminal offence, see Voyeurism (Offences) Act (2019)

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning, or scalding, drowning, suffocating, or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Some of the following signs may be indicators of physical abuse:

- Children with frequent injuries
- Children with unexplained or unusual fractures or broken bones; and
- Children with unexplained
 - o Bruises or cuts
 - o Burns or scalds; or
 - o Bitemarks.

Female genital mutilation refers to procedures that intentionally alter or cause injury to the female genital organs for non-medical reasons. The practice is illegal in the UK. It is our mandatory duty to report disclosures of FGM.

FGM typically takes place between birth and around 15 years old; however, it is believed that the majority of cases happen between the ages of 5 and 8.

Risk factors for FGM include:

- low level of integration into UK society
- mother or a sister who has undergone FGM
- girls who are withdrawn from PSHE
- visiting female elder from the country of origin
- being taken on a long holiday to the country of origin
- talk about a 'special' procedure to become a woman

Symptoms of FGM

FGM may be likely if there is a visiting female elder, there is talk of a special procedure or celebration to become a woman, or parents wish to take their daughter out-of-school to visit an 'at-risk' country (especially before the summer holidays), or parents who wish to withdraw their children from learning about FGM. Staff should not assume that FGM only happens outside the UK.

Indications that FGM may have already taken place may include:

- difficulty walking, sitting or standing and may even look uncomfortable.
- spending longer than normal in the bathroom or toilet due to difficulties urinating.
- spending long periods of time away from a classroom during the day with bladder or
- menstrual problems.
- frequent urinary, menstrual or stomach problems.
- prolonged or repeated absences from school or college, especially with noticeable
- behaviour changes (e.g. withdrawal or depression) on the girl's return
- reluctance to undergo normal medical examinations.
- confiding in a professional without being explicit about the problem due to
- embarrassment or fear.
- talking about pain or discomfort between her legs

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectation being imposed on children. These may include interactions that are beyond a child's developmental capability as

well as over protection and limitation of exploration and learning or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Some of the following signs may be indicators of emotional abuse:

- Children who are excessively withdrawn, fearful, or anxious about doing something wrong
- Parents or carers who withdraw their attention from their child, giving the child the 'cold shoulder'
- Parents or carers blaming their problems on their child; and
- Parents or carers who humiliate their child, for example, by name-calling or making negative comparisons.

Sexual abuse (and sexual exploitation): involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbations, kissing, rubbing, and touching outside of clothing. They may also include non-contact activities, such as involving children to look at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children is a specific safeguarding issue (also known as child-on-child abuse) in education and **all** staff should be aware of it and of their school or colleges policy and procedures for dealing with it.

Some of the following signs may be indicators of sexual abuse:

- Children who display knowledge or interest in sexual acts inappropriate to their age
- Children who use sexual language or have sexual knowledge that you wouldn't expect them to have
- Children who ask others to behave sexually or play sexual games; and
- Children with physical sexual health problems, including soreness in the genital or anal areas, sexually transmitted infections or underage pregnancy.

Child sexual exploitation is a form of child sexual abuse. The definition of child sexual exploitation is as follows:

'Child sexual exploitation is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology.'

Children rarely self-report child sexual exploitation so it is important that practitioners are aware of potential indicators of risk, including:

Acquisition of money, clothes, mobile phones etc without plausible explanation

Gang-association and/or isolation from peers/social networks

Exclusion or unexplained absences from school, college or work

Leaving home/care without explanation and persistently going missing or returning late

Excessive receipt of texts/phone calls

Returning home under the influence of drugs/alcohol

Inappropriate sexualised behaviour for age/sexually transmitted infections

Evidence of/suspicions of physical or sexual assault

Relationships with controlling or significantly older individuals or groups

Multiple callers (unknown adults or peers)

Frequenting areas known for sex work

Concerning use of internet or other social media

Increasing secretiveness around behaviours; and
Self-harm or significant changes in emotional well-being.

Potential vulnerabilities:

Although the following vulnerabilities increase the risk of child sexual exploitation, it must be remembered that not all children with these indicators will be exploited.

- Having a prior experience of neglect, physical and/or sexual abuse;
- Lack of a safe/stable home environment, now or in the past (domestic abuse or parental substance misuse, mental health issues or criminality, for example);
- Recent bereavement or loss;
- Social isolation or social difficulties;
- Absence of a safe environment to explore sexuality;
- Economic vulnerability;
- Homelessness or insecure accommodation status;
- Connections with other children and young people who are being sexually exploited;
- Family members or other connections involved in adult sex work;
- Having a physical or learning disability;
- Being in care (particularly those in residential care and those with interrupted care histories);
- Sexual identity.

Staff should also remain open to the fact that child sexual exploitation can occur without any of these risk indicators being obviously present.

Remember children can be exploited in a number of ways and it can take many forms, including sexual and criminal exploitation. Child exploitation is complex and rarely presents in isolation of other needs and risks of harm (although this may not always be the case).

Child Criminal Exploitation occurs where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or the threat of violence.

The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

- Some of the following can be indicators of CCE:
- children who appear with unexplained gifts or new possessions;
- children who associate with other young people involved in exploitation;
- children who suffer from changes in emotional well-being;
- children who misuse drugs and alcohol;
- children who go missing for periods of time or regularly come home late; and
- children who regularly miss school or education or do not take part in education.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to; provide adequate food, clothing, and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (the use of inadequate caregivers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Some of the following signs may be indicators of neglect:

- Children who are living in a home that is indisputably dirty or unsafe
- Children who are left hungry or dirty
- Children who are left without adequate clothing, e.g. not having a winter coat
- Children who are living in dangerous conditions, i.e. around drugs, alcohol or violence
- Children who are often angry, aggressive or self-harm
- Children who fail to receive basic health care; and
- Parents who fail to seek medical treatment when their children are ill or are injured.

Domestic Abuse:

In April 2021, the Domestic Abuse Act 2021 received Royal Assent and introduced a statutory definition for the first time.

Definition

The Domestic Abuse Act 2021 (Part 1) defines domestic abuse as any of the following behaviours, either as a pattern of behaviour, or as a single incident, between two people over the age of 16, who are 'personally connected' to each other:

- (a) physical or sexual abuse;
- (b) violent or threatening behaviour;
- (c) controlling or coercive behaviour;
- (d) economic abuse (adverse effect of the victim to acquire, use or maintain money or other property; or obtain goods or services); and
- (e) psychological, emotional or other abuse.

People are 'personally connected' when they are or have been married to each other or civil partners; or have agreed to marry or become civil partners. If the two people have been in an intimate relationship with each other, have shared parental responsibility for the same child, or they are relatives.

The definition of Domestic Abuse applies to children if they see or hear, or experience the effects of, the abuse; and they are related to the abusive person.

(The definition can be found here: <https://www.legislation.gov.uk/ukpga/2021/17/part/1/enacted>)

Types of domestic abuse include intimate partner violence, abuse by family members, teenage relationship abuse and child/adolescent to parent violence and abuse. Anyone can be a victim of domestic abuse, regardless of sexual identity, age, ethnicity, socio-economic status, sexuality or background and domestic abuse can take place inside or outside of the home.

Operation Encompass' aim is to ensure that schools have timely information about all police attended incidents of domestic violence; support school staff to understand how to support the children and ensure the children receive the support they need.

The National Domestic Abuse helpline can be called free of charge and in confidence, 24 hours a day on 0808 2000 247.

Bullying and forms of bullying on and offline including prejudice based and Cyber Bullying is also abusive which will include at least one, if not two, three or all four, of the defined categories of abuse **[Anti-bullying policy/ Online safety Policy]**.

Children Missing Education: Knowing where children are during school hours is an extremely important aspect of Safeguarding. Missing school can be an indicator of abuse and neglect and may also raise concerns about others safeguarding issues, including the criminal exploitation of children.

We monitor attendance carefully and address poor or irregular attendance without delay.

We will always follow up with parents/carers when pupils are not at school. This means we need to have a least two up to date contacts numbers for parents/carers. Parents should remember to update the school as soon as possible if the numbers change.

The school has:

1. Staff who understand what to do when children do not attend regularly
2. Appropriate policies, procedures and responses for pupils who go missing from education (especially on repeat occasions).
3. Staff who know the signs and triggers for travelling to conflict zones, FGM and forced marriage.
4. Procedures to inform the local authority when we plan to take pupils off-roll when they:

- a. leave school to be home educated
- b. move away from the school's location
- c. are permanently excluded

We will ensure that pupils who are expected to attend the school but fail to take up the place will be referred to the local authority.

When a pupil leaves the school, we will record the name of the pupil's new school and their expected start date.

The Prevent Duty and counter extremism

As part of the Counter Terrorism and Security Act 2015, schools have a duty to 'prevent people being drawn into terrorism'. This has become known as the 'Prevent Duty'.

Where staff are concerned that children and young people are developing extremist views or show signs of becoming radicalised, they should discuss this with the Designated Safeguarding Lead.

The Designated Safeguarding Lead has received training about the Prevent Duty and tackling extremism and is able to support staff with any concerns they may have.

We use the curriculum to ensure that children and young people understand how people with extreme views share these with others, especially using the internet.

Staff should be alert to changes in children's behaviour, which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who might be at risk of radicalisation and act proportionately which may include the designated safeguarding lead (or deputy) making a Prevent referral.

We are committed to ensuring that our pupils are offered a broad and balanced curriculum that aims to prepare them for life in modern Britain. Teaching the school's core values alongside the fundamental British Values supports quality teaching and learning, whilst making a positive contribution to the development of a fair, just and civil society.

Recognising Extremism

Early indicators of radicalisation or extremism may include:

- showing sympathy for extremist causes
- glorifying violence, especially to other faiths or cultures
- making remarks or comments about being at extremist events or rallies outside school
- evidence of possessing illegal or extremist literature
- advocating messages similar to illegal organisations or other extremist groups
- out of character changes in dress, behaviour and peer relationships (but there are also very powerful narratives, programmes and networks that young people can come across online so involvement with particular groups may not be apparent.)
- secretive behaviour
- online searches or sharing extremist messages or social profiles
- intolerance of difference, including faith, culture, gender, race or sexuality
- graffiti, art work or writing that displays extremist themes
- attempts to impose extremist views or practices on others
- verbalising anti-Western or anti-British views
- advocating violence towards others

Privately Fostered Children

Definition of private fostering

A private fostering arrangement is a private arrangement for a child under the age of 16 (or 18 if they are disabled) to be cared for by someone who is not a parent or close relative for more than 28 days. The Local Authority is not involved in placing the child or young person in this private arrangement.

A child or young person is privately fostered if they are living with extended family members such as cousins, great aunts, great uncles or a family friend. They may be living outside of their parents care due to;

- Child or young person is asked to leave the family home
- Parent is in prison / hospital / homeless
- To avoid becoming a looked after child
- Parent has left the local area and child has remained to complete academic studies
- Child leaves due to family dysfunction or because they have been living with parents who have substance misuse problems or other difficulties
- Parent decides to place child with extended family member
- Child is placed with extended family for religious or economic reasons

Responsibilities

Private foster carers are responsible for providing the day-to-day care of the child in a way which will promote and safeguard his welfare. However, the overarching responsibility remains with the person who has parental responsibility for the child.

The Local Authority has legal duties towards private fostered children and must satisfy itself that welfare of children who are, or will be, privately fostered within their area are satisfactorily safeguarded.

If you become aware of a child or young person living in a private fostering arrangement you must notify the Local Authority Children's Social Care in one working day.

A close family relative is defined as a 'grandparent, brother, sister, uncle or aunt' and includes half-siblings and step-parents; it does not include great-aunts or uncles, great grandparents or cousins.

Parents and private foster carers both have a legal duty to inform the relevant local authority at least six weeks before the arrangement is due to start; not to do so is a criminal offence.

Whilst most privately fostered children are appropriately supported and looked after, they are a potentially vulnerable group who should be monitored by the local authority, particularly when the child has come from another country. In some cases privately fostered children are affected by abuse and neglect, or be involved in trafficking, child sexual exploitation or modern-day slavery.

Schools have a mandatory duty to report to the local authority where they are aware or suspect that a child is subject to a private fostering arrangement. Although schools have a duty to inform the local authority, there is no duty for anyone, including the private foster carer or social workers to inform the school. However, it should be clear to the school who has parental responsibility.

School staff should notify the designated safeguarding lead when they become aware of private fostering arrangements. The designated safeguarding lead will speak to the family of the child involved to check that they are aware of their duty to inform the LA. The school itself has a duty to inform the local authority of the private fostering arrangements.

On admission to the school, we will take steps to verify the relationship of the adults to the child who is being registered.

Further information about indicators of abuse and neglect as well as safeguarding risks noted above are located in [Keeping Children Safe in Education](#) (2024)

Section 3: School staff safeguarding roles and responsibilities

Staff induction

Staff and governors at Hollingwood Primary School will have an induction appropriate to their roles, which will include organisation vision/ethos, aspirations, and expectations of all staff, as well as what is considered acceptable and what is not. New staff will also receive information about systems within the school/college which support safeguarding, including online safety and copies of policies; this includes:

- Child protection/ safeguarding policy, which includes how the school deals with child-on-child abuse
- School behaviour policy, which includes school measures to prevent bullying, including cyberbullying, prejudice-based and discriminatory bullying
- Staff behaviour (code of conduct) policy, which includes acceptable use of technologies/mobile devices, staff/learner relationship and communications, including the use of social media. The policy also incorporates low-level concerns, allegations against staff and whistleblowing
- The safeguarding response to children who go missing from education
- The safeguarding response to child-on-child abuse
- The role and names of the designated safeguarding lead, their deputy/ies, the designated teacher for looked after children, the senior mental health lead and the designated governor.

All staff will:

- Receive a paper/electronic copy of, read and sign to say that they have received, read, and understood:
 - Those who work directly with children at least Part one of [Keeping Children Safe in Education: for school and college staff](#) and Annex B: Further information (2024)
 - School/college leaders, including governors/trustees/proprietors and designated safeguarding leads/deputies all of [Keeping Children Safe in Education](#) (2024)
 - Staff who do not work with children directly at least [Keeping Children Safe in Education: for school and college staff \(part 1\)](#) or Annex A Safeguarding information for school and college staff (a condensed version of part 1)

All staff will:

- Be aware of:
 - The Stopping Domestic Abuse Together initiative (known nationally as Operation Encompass), a police-led early domestic abuse notification to schools
 - The safeguarding response to children who go missing from education
 - The safeguarding response to child-on-child abuse
 - The early help process for low level and emerging needs and understand their role in it
 - The process for making a referral to local authority children's social care, the statutory assessments that may follow this and the role they may play in such assessments
- Know what to do if a child tells them they are being abused, exploited, or neglected and will be able to reassure children they are being taken seriously, will be supported, and kept safe
- Know what to do if a child shares, produces, or receives a sexual communication, including sharing nudes/ semi-nudes
- Know what to do if a parent or carer shares any concerns about a child
- Be aware:
 - Children may not feel ready or know how to tell and/or might not recognise their experiences as harmful and that certain children may face additional barriers to telling
 - Any child may benefit from early help and be alert to the need for early help for some groups of children
 - Of the indicators of abuse and neglect, understand that children can be at risk inside and outside of the school, in their home, institutional or community setting and online
 - Children can abuse other children, referred to as child-on-child abuse, and the school policy to prevent and respond to it
 - Children with special education needs or disabilities (SEND), particularly those with neurodevelopmental conditions such as autism, as well as those with certain medical or physical health conditions are particularly vulnerable to online and offline abuse, exploitation, and neglect - and also face additional barriers to the recognition of this abuse
 - Technology is a significant component in many safeguarding and well-being issues

- Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation
 - That children's poor behaviour may be a sign that they are suffering harm or that they have been traumatised by abuse
 - Of the 'one chance' rule with suspected or actual victims of forced marriage and so called 'honour-based' abuse. That is, they may only have one opportunity to speak to a victim or potential victim to offer appropriate support and advice
 - Of the indicators which may signal children are at risk from, or involved with, serious violent crime
- Have the skills, knowledge and understanding to keep looked after children and previously looked after children safe
 - Discuss/report any concerns they have about a child with the designated safeguarding lead or their deputy. If staff members are unsure, they should always speak to the designated safeguarding lead or their deputy
 - Speak to the designated safeguarding lead or deputy about any concerns about so called 'honour-based' abuse, breast ironing, female genital mutilation (FGM)², virginity testing and hymenoplasty³
 - Work with the designated safeguarding lead and do everything they can to support social workers to help them carry out a statutory assessment
 - Be mindful that early information sharing is vital to identifying and tackling all forms of abuse and neglect and in promoting children's welfare, including in relation to their educational outcomes
 - Update training regularly in line with the expectations of their role. At Hollingwood staff have regular weekly briefings which may include any safeguarding concerns, a weekly 39 weeks of safeguarding briefing sheet (sent by email – copy on the Safeguarding notice board in the staffroom) Access to KCSIE updates each year and training in line with this from the DSL.

Governors and the management of school safeguarding

As outlined in [Keeping Children Safe in Education](#) the governing body have a strategic leadership responsibility for the school safeguarding arrangements and has/have the responsibility to ensure that the school complies with safeguarding duties under legislation. There is a senior board level lead to take leadership responsibility for the establishment's safeguarding arrangements.

The governing body and their senior leadership teams and designated safeguarding lead are aware of and follow local arrangements. This includes understanding and applying the [Threshold document](#) (criteria for action), local Protocol for Assessment in [Derby](#) and Derbyshire [Derby](#) or [Derbyshire](#) Child Protection Conference Professionals Dissent process and [Dispute Resolution and Escalation policy](#). Arrangements have been made to set out information sharing processes and principles within the school and with local authority children's social care, safeguarding partners (Derby and Derbyshire Safeguarding Children Partnership/DDSCP) and other agencies. The school/college will supply information as requested by the DDSCP which enables and assists partners to perform their functions to safeguard and promote the welfare of children in their area, including information related to local and national child safeguarding practice reviews.

Governors exercise strategic oversight of all aspects of safeguarding in the school and this is a standing item at all governing body meetings and recorded in minutes. To support this an annual safeguarding audit is completed to ensure the effectiveness of safeguarding policies and processes. Confirmation of annual safeguarding audit completion is also provided to the DDSCP. In addition, an annual review and risk assessment of the school/college approach to online safety, policy and practice is undertaken. E.g [360 Degrees Safe Online Safety Self-Review Tool for Schools](#)

Headteacher

The school's headteacher will ensure that the policies and procedures, adopted by their governing body/trustees and proprietors, are understood, and followed by all staff. This includes working with designated safeguarding leads, deputies and other senior leaders, to ensure the effectiveness of safeguarding

² There is a specific [legal duty](#) on teachers to report acts of FGM on girls under 18 to the police

³ It is illegal to carry out, offer or aid and abet virginity testing or hymenoplasty in any part of the UK; see multi-agency [guidance](#) for more information

within the school and ensuring that educational outcomes of children who have or have had a social worker are promoted.

Designated safeguarding lead and deputy designated safeguarding lead

A member of the senior leadership team is appointed to the role of designated safeguarding lead to take lead responsibility for safeguarding and child protection (including online safety).

The designated safeguarding lead co-ordinates the setting's safeguarding and child protection arrangements by providing advice and support to other staff on child welfare, safeguarding and child protection matters, including Stopping Domestic Abuse Together (SDAT) notifications, takes part in strategy discussions/meetings and inter-agency meetings – and/or supports other staff to do so - and contributes to the assessment of children.

The establishment also has deputy designated safeguarding leads to cover for when the designated safeguarding lead is not available; the lead responsibility however remains with the designated safeguarding lead.

The designated safeguarding lead actively liaises with other school staff with safeguarding responsibilities, teachers, pastoral support staff, school nurses, IT leads, SENCos and senior mental health leads on matters of safety and safeguarding to ensure safeguarding and promoting children's well-being are effective.

The designated safeguarding lead or a deputy is always available during school hours for the staff in the school to discuss any safeguarding concerns. At Hollingwood Primary there are 4 DSL on site at any one time.

More information about the role and responsibilities of the designated safeguarding lead can be found in [Keeping Children Safe in Education](#) Annex C: Role of the designated safeguarding lead.

Safeguarding training

In addition to the safeguarding training at induction, all staff and governors will receive safeguarding training appropriate to their roles and responsibilities which is regularly updated⁴ as well as Prevent Duty, child-on-child abuse and online safety training, including sharing nudes/semi-nudes, so they are equipped with the knowledge and skills to keep children safe. They will also receive regular safeguarding and child protection (including online safety) updates at least annually to help provide them with an awareness of safeguarding issues that can put children at the risk of harm ensuring they have the relevant skills and knowledge to safeguard children effectively.

The governors' safeguarding training and updates will enable them to have the knowledge to provide strategic challenge to test and assure themselves that safeguarding processes and procedures are effective and robust and a whole school approach to safeguarding is in place.

Those involved with the recruitment and employment of staff to work with children will have received appropriate safer recruitment training.

⁴ See DDSCP multi-agency training pathway on the [training page](#) of www.ddscp.org.uk

Section 5: Ensuring a safe environment for all children

Our school provides a safe environment where children can learn and develop. This is an essential part of our whole school approach to safeguarding which incorporates a culture of vigilance where children's welfare is promoted, timely and appropriate safeguarding action is taken for children who need extra help or who may be suffering, or likely to suffer harm.

The school environment is safe and secure and protects our learners from harm or the risk of harm. Positive behaviours are consistently promoted, and abusive or inappropriate behaviour challenged. A positive and supportive environment is promoted which gives learners a sense of being valued.

Vulnerable children

We recognise that some groups of children are potentially at greater risk of harm than others and have agreed arrangements to ensure the safety of these children:

- **Children who need a social worker (Child in Need and Child Protection Plans).** As a matter of routine, the designated safeguarding lead will hold and use the information that the child has a social worker to ensure that as a matter of routine decisions can be made in the best interests of the child's safety, welfare and educational outcomes. In addition, the school will work with the virtual head as appropriate, regarding the educational attendance, attainment, and progress of children with a social worker.
- **Children missing from education.** The school response to children missing from education supports identifying a range of safeguarding issues and abuse; it also helps prevent the risk of children going missing in the future. This includes when problems are first emerging but also where children are already known to local authority children's social care and need a social worker, where going missing from education may increase known safeguarding risks within the family or in the community. We support and monitor attendance carefully and address poor or irregular attendance without delay. At Hollingwood Primary we promote good attendance through attendance celebrations, posters, meetings with parents, supporting families please see our attendance policy on the school website. *Further information :see Derby Children Missing Education [webpage](#) and Derbyshire Children Missing from Education webpage)*

The school also recognises that when children are not in school, such as when a learner is on a reduced timetable, suspended or excluded, they miss the protection and opportunities that education can provide, and can become more vulnerable to harm. Learners who have a social worker, including looked-after children, and previously looked-after children are especially vulnerable. The school proactively supports learners in the school environment and decision-making processes about reduced timetables, suspension or exclusion operate in the best interest of children as outlined in local and national guidance. *At Hollingwood Primary School we strive to promote positive behaviour, support learners, and work to create environments where reduced timetables, suspension or exclusions are not required. See national guidance [Behaviour in Schools \(2023\)](#), [Suspension and Permanent Exclusion from maintained schools, academies and pupil referral units in England, including pupil movement \(2023\)](#), [Supporting pupils at school with medical conditions \(2015\)](#) and local guidance [Derby part-time timetable guidance and a protocol](#) and [Derby In Year Fair Access \(IYFA\)](#) and [Exclusions or Derbyshire part-time timetables and Derbyshire attendance management and exclusions](#).*

- **Elective home education.** Where a parent/carers has expressed their intention to remove a child from school with a view to educating at home, the school will seek to co-ordinate a meeting with the parents/carers, Local Authority, and other key professionals where possible. This would be before a final decision has been made, to ensure the parents/carers have considered what is in the best interests of each child and is particularly important where a child has SEND, is vulnerable, and/or has a social worker or is vulnerable. Where a child is taken off roll, we will inform the Local Authority of the deletion from our admission register via the system outlined on the [Derbyshire Education Welfare](#) webpages.

- **Children who require mental health support.** The school has an important role to play in supporting the well-being and mental health of our learners. Mental health problems can be an indicator that a child has suffered or is at risk of suffering abuse, neglect, or exploitation. We have clear systems and processes in place for identifying possible emotional well-being issues and mental health problems, seek advice from external agencies where appropriate and have clear referral and accountability systems. At Hollingwood Primary personal, social and emotional development is threaded through our curriculum. We have a whole school approach to emotional well being and mental health, our school has an ELSA and a family support worker who support children who are struggling with their emotional well being / mental health. Where appropriate we see support/ help and guidance to ensure children receive bespoke timely support from appropriate agencies e.g build sound minds, CAHMS. *We utilise Derby and Derbyshire Mental Health Pathway Guidance and a mental health lead.*
- **Looked after children and previously looked after children.** The school ensures that appropriate staff have the information they need in relation to a child's looked after legal status, contact arrangements with birth parents or those with parental responsibility, care arrangements and the levels of authority delegated to the carer by the authority looking after him/her. The designated safeguarding lead has:
 - Details of the child's social worker, and
 - The name and contact details of the virtual school head and the relevant support officer in the authority that looks after the child
 - The name of the Personal Advisor appointed to support a child who has left care

When dealing with looked after children and previously looked after children, the school/ college will work with all local authority children's social care, health and other relevant agencies and take prompt action when necessary to safeguard these children, who are a particularly vulnerable group. The school has a named designated teacher, who works with the Virtual School, to promote the educational achievement of pupils who are looked after, have left care through adoption, special guardianship, or child arrangement orders, or adopted from state care outside of England and Wales. The designated teacher has appropriate training, relevant qualifications, and experience.
- **Children with special educational needs and disabilities (SEND) or health issues.** The designated safeguarding lead and SENCo will closely liaise whenever there are any concerns or reports of abuse, neglect or exploitation involving a child with SEND, neurodevelopmental conditions such as autism or certain medical or physical health conditions. The school will consider extra pastoral support and attention for these children, along with ensuring any appropriate support for communication is in place. *E.g ELSA, Family worker or external referrals*
- **Children who are, or may be, lesbian, gay, bi, or trans (LGBT+).** The school will take steps to reduce the additional barriers these children face and provide a safe space for them to speak out or share their concerns with staff. At Hollingwood we ensure our curriculum covers and educates children about all protected characteristics. E.g LGBT+ inclusion is part of our relationships and sex education.

We also recognise that in addition to the above, other factors can increase a child's vulnerability to abuse, exploitation, or neglect such as:

- In a family circumstance presenting challenges for the child, such as parental substance (drugs and/or alcohol) misuse, adult mental health issues and domestic abuse
- Misusing drugs and or alcohol
- Being an asylum seeker/refugee
- Being from our New Communities
- Living away from home, including private fostering arrangements, or have returned home to their family from care
- Are at risk of homelessness or living in temporary accommodation
- Living in chaotic, neglectful, and unsupportive home situations
- Vulnerable to discrimination and maltreatment on the grounds of age, gender reassignment, marriage/civil partnership, pregnancy/maternity leave, disability, race (including colour, nationality, ethnic or national origin), religion/belief, gender, sex, or sexual orientation

- Being a young carer
- Not speaking or not having English as a first language
- Being involved in the court system
- Children affected by parental offending or with family members in prison

At Hollingwood Primary we ensure we provide timely support and provision to the children who need it for example extra pastoral support with the ELSA or family worker, working closely with charities and organisations that can support families such as the ELM foundation, the local food banks, local police, resources for EAL to support families who first language is not English,

Teaching safeguarding

We are committed to offering our learners preventative education and ensure that learners are aware of safeguarding risks, recognise when they are at risk and how and where to get help and support if they need it. They will be taught about healthy relationships online and offline, how to keep themselves and others safe, including online. To be effective, we recognise this will need to be tailored to the specific needs and vulnerabilities of individual children, including those who have been victims of abuse and children with special educational needs and disabilities.

Our preventative education forms part of our whole school approach to prepare our learners for life in modern Britain, encourages open debate about different points of view and beliefs and creates a culture of zero tolerance for sexism, misogyny/ misandry, disablism, racism, homophobia, biphobia and sexual violence and harassment. The school's core values and standards, alongside the fundamental British Values, are upheld and demonstrated throughout all aspects of the school. This is underpinned by the school's behaviour policy, pastoral support system and our planned evidence-based relationships education/relationships and sex education and health education and reinforced throughout the whole curriculum.

See *Hollingwood Primary's* relationships education/relationships and sex education and health education policy and behaviour policy.

Online safety

Online safety and protecting learners from potentially harmful and inappropriate online material forms part of the whole school approach to safeguarding, including policies, curriculum, staff training, roles and responsibilities of the designated safeguarding lead and parental engagement. The school has filtering and monitoring systems in place, these are regularly reviewed for their effectiveness and the leadership team and relevant staff escalate concerns when identified. The school protects and educates learners and staff in their use of technology, including where they are learning remotely, and has mechanisms to identify, intervene and escalate any concerns where this is needed.

The school online safety policy outlines how the four areas of risk, content, contact, conduct and commerce, will be addressed to protect and educate learners and staff. It also incorporates the policy on the use of mobile and smart technology. The school is also in regular communication with parents and carers and uses these communications to reinforce online safety and the systems the school use to protect children from online harms.

To ensure that online safety is effective, especially as technology and the associated risks and harms evolve and change, the school undertakes an annual review and risk assessment.

See school online safety policy.

Systems for children to report concerns and abuse

Our school recognises the importance of ensuring that all children feel heard and understood. We have a culture of listening to children and taking account of their wishes and feelings in any measures the school may put in place to protect them. Whenever there are any concerns, the child's wishes will be taken into account when determining what action to take and what services are provided. The welfare and safety of a child is of paramount concern and staff will act in the best interests of the child.

We understand the difficulties that children may have in approaching staff about their circumstances and any concerns they may have. Some children may feel unable to report their concerns or abuse, others may have additional barriers to telling someone or not recognise what is happening is abusive.

The school has an open and accepting attitude towards children and promotes a positive and supportive environment as part of our responsibility for pastoral care. Our school ethos promotes trusted relationships between learners and all staff which supports children to tell staff about any concerns they may have. Every classroom also has a 'worry box' where children can record any worries they may have. There are leaflets in every class that explain what abuse is and it directs them to services and staff who can support them.

Children, parents/carers, and all staff will be free to talk about any concerns and see the school as a safe place. Many children can show signs or act in ways they hope adults will notice or react to, others may make indirect reports via a friend or staff may overhear conversations. All staff are alert to this and to the potential need for early help and are aware of the indicators of abuse, exploitation and neglect and know what actions they should take.

The school has systems in place for children to complain and/or confidently report their concerns, including any form of abuse or neglect, including child-on-child abuse, and know that their concerns will be treated seriously. There is a child friendly complaints policy which guides this process if they have any concerns. In each classroom and around school are the safeguarding team photos, children know who to talk to and know they will be taken seriously. The children can safely express their views and give feedback this is promoted in school both by staff and senior leaders.

Working with parents and carers

We recognise the importance of working together with parents/carers to educate as well as safeguard and promote the welfare of children.

Hollingwood Primary School staff will ensure that:

- We work with parents positively, openly, and honestly
- Parents are encouraged to discuss their issues or concerns about safety and welfare of children, including any worries about a child's emotional well-being or mental health. They will be listened to and taken seriously
- Parents/carers are aware there is a whole school safeguarding approach to ensure that children are kept safe and well, and as part of this the school is part of the Operation Encompass initiative
- We will provide parents with information about safeguarding issues, such as child exploitation (sexual and criminal) known as child at risk of exploitation (CRE), child-on-child abuse, emotional well-being/mental health, online safety, including sharing nudes and semi-nudes, harmful sexual behaviour, and terrorist/extremist material. We will also outline the support available to keep children safe within the school/college, locally and nationally
- Up to date and accurate information is kept about pupils/students i.e.
 - names and contact persons with whom the child normally lives
 - those with parental responsibility
 - where reasonably possible, we hold more than one emergency contact number
 - if different from above, those authorised to collect the child from the setting
 - name and contact details of GP
 - any relevant court orders or any other factors which may impact on the safety and welfare of the child
- Information about our learners given to us by children themselves, their parents, or carers or by other agencies will remain confidential. Staff will be given relevant information on a 'need to know' basis in order to support the child
- It is made clear to parents and carers that the school has a duty to share information when there are any safeguarding concerns. Also, that there is a duty to keep records which relate to safeguarding work by the school/college, or partner agencies. These will be kept securely, kept apart from the main pupil/student record and only accessible to key members of staff. Copies of these records will be securely sent to any education provider to which the child transfers and a confirmation of receipt obtained. At Hollingwood concerns and records are kept via 'Safeguard'.

- Where we have reason to be concerned about the welfare of a child, we will always seek to discuss this with the child's parents or carers first. However there may be occasions where we are not able to do this, for example, when by doing so, it places the child at additional risk or where it may not be possible to speak to the parents/carers

Section 6: Responding to concerns about a child's welfare

Key points to remember for any member of staff (including volunteers or supply staff) or visitors whenever they have any concerns about a child's welfare:

- In an emergency take the action necessary to help the child, for example, call 999
- Do not assume a colleague or another professional will take action and share information that might be critical to keeping a child safe. Early information sharing is vital in keeping children safe, whether this is when problems first emerge, or when a child is already known to local authority children's social care
- Report your concern to the designated safeguarding lead or their deputy as soon as you can and by the end of the day at the latest. All incidents are recorded on our online platform Safeguard and reported directly to the DSLS
- If you are unsure speak to the designated safeguarding lead or their deputy
- If the designated safeguarding lead or their deputy is not around, ensure the information is shared with the most senior person in the school that day. The concerns and any action taken must then be shared with the designated safeguarding lead as soon as it is possible
- If the concerns are about sharing nudes and semi-nudes do not view, copy, print or share the images
- Share information on a need-to-know basis only – do not discuss the issue with colleagues, friends or family
- As soon as you are able complete a record of the concerns. This should be on the same day and before the child is due to leave the school premises. Staff will complete an incident log on Safeguard and send to DSL team.
- Seek support for yourself if you are distressed by speaking to the DSL team.

Staff must always **immediately** inform the designated safeguarding lead or their deputy if there are any:

- Concerns that a child is presenting signs or symptoms of abuse or neglect, including suspicion that a child is injured, marked, or bruised in a way which is not readily attributable to the normal knocks or scrapes received in play
- Searching incidents where there are reasonable grounds to suspect a learner was in possession of a prohibited item⁵ or where a search has revealed a safeguarding risk
- Behaviour or changes in presentation, including changes in school attendance, which gives rise to suspicions that a child may not be receiving adequate care or may be suffering harm
- Hint or disclosure of abuse about or by a child
- Concerns that a person(s) who may pose a risk to children is living in a household with children present
- Concerns about online abuse including cybercrime, exploitation, harmful sexual behaviour, sharing nudes and semi nudes and/or where any adult appears to be sexually communicating (e.g., email, text, written note or verbally) with a child
- Concerns about child-on-child abuse, including sexual violence and harassment
- Information which indicates that the child is living with someone who does not have parental responsibility for them (this is known as private fostering)

⁵ Prohibited items include knives and weapons, alcohol, illegal drugs, stolen items, tobacco, cigarette papers, fireworks, pornographic images; any article that the member of staff reasonably suspects has been, or is likely to be used, to commit an offence, or to cause personal injury to, or damage to property of; any person (including the learner).

- Concerns that a child is at risk of domestic abuse or so called 'honour-based' abuse, including forced marriage, female genital mutilation (FGM), breast ironing, virginity testing or hymenoplasty
- Concerns that a child is at risk of radicalisation, child sexual exploitation or criminal exploitation, including county lines; (this is also known locally as CRE - child at risk of exploitation) or that a child or their parent/carer may be a victim of modern slavery (trafficked)

There will also be occasions when you suspect that a child may be at risk, but you have no 'real' evidence or that the child may need support with their mental health. The child's behaviour and or appearance may have changed, their attendance at school may have reduced, their ability to concentrate and focus may have altered, or you may have noticed other behavioural and or physical but inconclusive signs. In these circumstances, you should try to give the child the opportunity to talk. The signs you have noticed may be due to a variety of factors and it is fine to ask the child if they are alright or if you can help in any way.

It is not the responsibility of the school staff to investigate welfare concerns or determine the truth of any disclosure or allegation; this is the responsibility of local authority children's social care. All staff however have a duty to recognise where extra support is needed or where there are complex needs or child protection concerns requiring intensive or specialist support.

Ensure you record these early concerns using *CPOMS*. If a child or adult does begin to reveal that a child is being harmed, you should follow the advice in the section '*If a child chooses to tell a member of staff about a concern or abuse*'.

Remember: If you are unsure, you should always have a discussion with the designated safeguarding lead or their deputy

If a child chooses to tell a member of staff about a concern or abuse

It takes a lot of courage for a child, parent, carer, or other significant adult to disclose that they are worried or have concerns. They may feel ashamed, the abuser may have threatened what will happen if they tell, they may have lost all trust in adults, or they may believe, or have been told, that the abuse is their own fault. It is important they are reassured that they are being taken seriously, and that they will be supported and kept safe. They should not be made to feel they are creating a problem or feel ashamed for making a report. Reports, particularly those about sexual violence and harassment, if possible, should be managed with two members of staff present (preferably one being the designated safeguarding lead or a deputy), however this might not be possible in all cases.

If a child or adult talks to you about any risks to a child's safety or wellbeing you will need to let them know that you must pass the information on – you are not allowed to keep secrets. The point at which you do this is a matter for professional judgement.

During your conversation with the child (or their parent/carer):

- Allow them to speak freely, listen to what is being said without interruption and without asking leading questions
- Keep questions to a minimum and of an open nature ('TED questions' tell me, explain, describe) i.e., 'can you tell me what happened?' rather than 'did x hit you?'
- Remain calm and do not overreact – the child (or their parent/carer) may stop talking if they feel they are upsetting you
- Give reassuring nods or words of comfort – 'I'm so sorry this has happened', 'I want to help', 'This isn't your fault', 'You are doing the right thing in talking to me'
- Avoid admonishing the child or adult for not disclosing earlier. Saying 'I do wish you had told me about this when it started' or 'I can't believe what I'm hearing' may be your way of being supportive but they may interpret it that they have done something wrong
- Do not be afraid of silences – remember how hard this must be for the child or adult
- Under no circumstances ask investigative questions – such as how many times this has happened, whether it happens to siblings too, or what do other family members think about all this

- At an appropriate time tell the child or adult that to help them you must pass the information on
- Do not automatically offer any physical touch as comfort; it may be anything but comforting to a child who has been abused
- Tell the child or adult what will happen next. The child or adult may agree to go with you to see the designated safeguarding lead. Otherwise let them know that someone will come to see or contact them before the end of the day
- Report verbally to the designated safeguarding lead
- Write up your conversation as soon as possible and hand it to the designated safeguarding lead
- Children should not be asked to write statements about abuse or any concerns that may have happened to them or sign the staff record
- Seek support if you feel distressed. This may be sometime after the disclosure

Role of the designated safeguarding lead and their deputy following identification of concerns

Whenever the designated safeguarding lead or their deputy receive information regarding concerns about a child, including via police domestic abuse notifications (Stopping Domestic Abuse Together/SDAT) they will:

- Review information received and assess if any urgent actions are needed, i.e. medical, child's immediate safety
- Check what is known about the child when they arrived (or not) at school today, how they are presenting physically and emotionally and if there are any changes in their behaviour
- Consider what is already known about the child and their family, including whether any previous concerns have been raised by staff or if they are already known to local authority children's services (targeted early help or social care)
- Consider what 'checks' need to be carried out and how best these can be achieved
- Inform relevant school staff who have a specific need to know i.e. class/form teacher and relevant support staff
- Where appropriate use relevant national, local and education-based risk identifying, assessment tools and guidance to support the identification of needs and decision making, such as:
 - School - based records, assessments, and chronologies, including any contextual factors/placed based risks using body maps on Safeguard, boxall profile, ELSA assessment tools.
 - DDSCP multi-agency guidance, tools and briefing notes, for example Self-harm and Suicidal Behaviour Guidance, Briefing Note: Harmful Online Challenges and Hoaxes, Guidelines for gathering information and assessing the needs of children whose parents have drug/alcohol issues, Practice Guidance Child Sexual Abuse within the Family, Practice Guidance for responding to Adults and Child Victims of Modern Slavery, Male Circumcision guidance, Childhood Obesity: Health, Wellbeing and Safeguarding guidance for practitioners, Schools Stopping Domestic Abuse Together Guidance, Domestic Violence Risk Identification Matrix (DVRIM), Safelives DASH Risk Identification Checklist (domestic abuse risk to adults), CRE (Children at Risk of Exploitation) risk assessment, Graded Care Profile (neglect); see DDSCP safeguarding children procedures [documents library](#)
 - National guidance and assessment tools e.g. [Stop it now](#) (sexual behaviours), [Contextual safeguarding](#) tools, [Sharing nudes and semi-nudes: advice for education settings working with children and young people](#)
- Not directly approaching a child or parent/carer about an incident when the school have received a domestic abuse notification (operation encompass) and instead make general enquiries with the child about how they are. If a child initiates a conversation about the incident the guidance outlined in the section '*If a child chooses to tell a member of staff about a concern or abuse*' will be followed.
- Following the [Derby and Derbyshire Safeguarding Children Procedures](#) and using the DDSCP [Threshold document](#) to support decision making about the child's needs and the appropriate level of support and intervention. Possible options include internal support via school/college pastoral systems, early help assessment and referral to statutory services such as local authority children's services.
- Considering whether the matter should be discussed with the child's parents or carers or whether to do so may put the child at further risk of harm, see Notifying parents.
- If unsure about the action to take, including that a child protection referral should be made, seeking advice from local authority children's social care or another appropriate agency.

- If the concerns are about radicalisation or violent extremism, making a referral to the police Prevent Team.
- Where the child has complex needs or where there are child protection concerns, referring as appropriate to Local Authority Children's Services via agreed processes, providing a copy of the early help assessment, action plan and any other relevant assessments.
- If a child is at risk of immediate harm, and/or where it is believed a criminal offence has been committed, including sexual violence and harassment, referring to the police. See [NPCC When to call the police; guidance for schools and colleges](#). Safeguarding considerations must take priority and include how screening, searching, and confiscating powers will be used safely, proportionately, and appropriately, including undertaking a police strip search on a child and the requirement for children to have an [appropriate adult](#).; see [Searching, screening and confiscation at school guidance](#) (2022).

Notifying parents/carers

The school will normally seek to discuss any needs or concerns about a child with their parents or carers. Where an early help assessment would benefit the child and their family the most appropriate member of staff should approach the parent/carer to take this forward. In situations where there are serious needs or child protection concerns the designated safeguarding lead or deputy will contact the parent or carer. However, if the setting believes that notifying parents could increase the risk to the child or exacerbate the problem, then advice will first be sought from local authority children's social care.

Pastoral/school-based support (universal support/ low level needs)

In all cases the school will consider what support could be offered within the setting via pastoral support processes. At Hollingwood Primary School we have a dedicated pastoral team including SENCO, ELSA and Family worker who provide school based emotional support for children's wellbeing and mental health. Where appropriate we utilise the *Derby and Derbyshire Mental Health Pathway Guidance to ensure families and children receive the right kind of support*. Pastoral support will be kept under constant review to ensure that it is effective.

Early help support and assessment (emerging needs)

Where a child is likely to require co-ordinated support from a range of early help services, or where there are concerns for a child's well-being or a child's needs are not clear, not known or not being met, the designated safeguarding lead or their deputy will support the completion of an early help assessment (EHA) and if needed, co-ordinate a team around the family (TAF)

Whenever a child and their family are supported via an early help assessment, the school will keep this under constant review and should the child's situation appear not to be improving or getting worse, consideration will be given to a referral to local authority children's services.

For more information about the early help assessment process see Derby and Derbyshire Safeguarding Children; [Providing early help](#) procedure.

Referral to local authority children's social care (intensive and specialist support)

Concerns about a child's welfare will be referred to local authority children's social care using the agreed referral process as outlined in Derby and Derbyshire Safeguarding Children; [Making a referral to Children's Social Care procedure](#).

**If at any point there is a risk of immediate serious harm to a child, an immediate referral should be made to local authority children's social care and/or if appropriate, the police
Anybody can make the referral**

Where it is believed that there are urgent child protection concerns, the designated safeguarding lead or deputy will make a referral to local authority children's social care by phone and follow this up in 'writing' via the local authority Online Referral System. Non-urgent cases will be referred via the local authority Care Online Referral System. In Derby submission of an early help assessment, or equivalent assessment, to the weekly Vulnerable Children meeting (VCM) in the relevant locality can also be made.

In exceptional circumstances, such as in an emergency or a genuine concern that appropriate action hasn't been taken, any staff member can refer their concerns directly to local authority children's social care; however, they should inform the designated safeguarding lead or deputy as soon as possible.

Female genital mutilation (FGM)

If the referral is about a 'known' case of female genital mutilation (FGM), in addition to a referral to local authority children's social care, the individual teacher also has a mandatory reporting duty; see [Mandatory Reporting of Female Genital Mutilation: procedural information](#) (2015). Under this duty, 'known' cases of FGM where a girl under 18 informs the person that an act of FGM has been carried out on her, or where physical signs appear to show that an act of FGM was carried out, this must be reported to the police on 101. This is a personal responsibility in addition to the referral to local authority children's social care and the professional who identifies FGM and/or receives the disclosure should make the report by the close of the next working day.

Action following referral

The designated safeguarding lead, their deputy or other appropriate member of staff will:

- Where a referral was made by phone follow up the referral in writing using the online referral system within 48 hours and attaching any existing assessment e.g. early help assessment. In all cases the school/college will also include information held about any place-based risks (harm outside of the home)
- Be aware that local authority children's social care should make a decision within one working day of the referral being made about what course of action they are taking and let the school/college know the outcome. If the information is not forthcoming, the designated safeguarding lead or another appropriate member of staff should follow this up
- Maintain contact with the allocated social worker and support them or other agencies following any referral
- Contribute to any strategy discussion or meetings
- Support any Section 47 enquiries or statutory assessments that are carried out
- Provide a report for, attend, and contribute to any initial and review Child Protection Conference. This includes sharing any reports with parents/carers and where appropriate, the child
- Share the content of this report with the parent/carer and if appropriate the child, prior to the meeting
- Attend core group meetings for any child subject to a Child Protection plan or Child in Need meeting for any child subject to a Child in Need plan
- Whenever there are concerns about the outcome of a Child Protection Conference, use the appropriate [Derby](#) or [Derbyshire](#) Child Protection Conference Professional Dissent Process
- Where a child on a Child Protection plan, Child in Need plan or who is Looked After moves from the school/college or goes missing, immediately inform the key worker in local authority children's social care
- If after the referral the child's situation does not appear to be improving the designated safeguarding lead should press for re-consideration to ensure their concerns have been addressed and the child's situation improves. See Derby and Derbyshire [Multi-Agency Dispute Resolution and Escalation Policy](#)

Confidentiality and sharing information

The school recognises the importance of information sharing between the school and local agencies to effectively safeguard our learners. The setting operates with regard to HM Government [Information Sharing: Advice for practitioners providing safeguarding services to children, young people, parents and carers](#) (2018) and DDSCP [Information Sharing Guidance for Practitioners](#) (2022).

All staff will be mindful of the seven golden rules to sharing information (See Appendix 3) and [Data Protection Act](#) (2018) and [UK General Data Protection Regulation](#) (UK GDPR) obligations. Staff are aware that the Data Protection Act 2018 and UK GDPR do not prevent or limit the sharing of information for the purposes of keeping children safe and promoting their welfare.

School staff should be proactive in sharing information as early as possible to help identify, assess, and respond to risks or concerns about the safety and welfare of a child, whether this is when problems are first emerging, or where a child is already known to local authority children's social care.

If in any doubt about sharing information, staff should speak to the designated safeguarding lead or a deputy

Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare, and protect the safety, of children

Staff should only discuss concerns with the designated safeguarding lead or deputy (or the most senior person on the premises if they are unavailable), headteacher or chair of governors (depending on who is the subject of the concern). That person will then decide who else needs to have the information and they will disseminate it on a 'need-to-know' basis.

Wherever possible consent will be sought to share information. However, where there are safeguarding concerns about a child, information will be shared with the appropriate organisations such as local authority children's social care. In most cases concerns will be discussed with parents and carers prior to the referral taking place unless doing so would increase risk.

The school's policy on information-sharing is available to parents and children on request.

Record keeping

All concerns, discussions and decisions made and the reasons for those decisions should be recorded in writing using the school's agreed processes. If in doubt about recording requirements staff should discuss with the designated safeguarding lead or their deputy.

Records of concerns documentation, referrals and other written safeguarding information are kept in a child protection file for each child and stored separately from each child's education file; this file is 'tagged' to indicate that separate information is held. Child protection files are confidential and stored securely and only made available to relevant individuals.

Records will include:

- A clear and comprehensive summary of the concern
- Details of how the concern was followed up and resolved
- A note of any action taken, decisions reached and the outcome, as well as a review of any progress made. Any professional differences of opinion about the safety of a child will also be recorded; see DDSCP Multi Agency [Dispute Resolution and Escalation Policy](#) and [Derby](#) or [Derbyshire](#) Child Protection Conference Professional Dissent Process

When a child leaves the school, the designated safeguarding lead will ensure a copy of these records will be sent securely as soon as possible (within 5 days for an in-year transfer or within the first 5 days of the start of a new term) to any school/college or other education setting to which the child transfers and a confirmation of receipt obtained. The child protection file transfer will be separate to the main pupil file. This will allow the new provider to continue supporting the child and have the support in place for when the child arrives.

The designated safeguarding lead will also consider if it would be appropriate to share any information with the new education provider in advance of the child leaving e.g. children who have or who have had a social worker and those receiving support through the Channel programme.

The designated safeguarding lead, their deputy and key staff such as special education needs co-ordinators will be informed when a child's safeguarding/child protection file is received.

Support for those involved in a safeguarding/child protection issue

Child neglect, abuse and exploitation are devastating for children and can also result in distress and anxiety for staff who become involved. We will support the children and their families and staff by:

- Taking all suspicions and disclosures seriously
- Nominating a link person who will keep all parties informed and be the central point of contact
- Nominating a 'case manager' where a member of staff is the subject of an allegation made by a child
- Responding sympathetically to any request from a child or member of staff for time out to deal with distress or anxiety
- Maintaining confidentiality and sharing information on a need-to-know basis only with relevant individuals and agencies
- Storing records securely
- Offering details of helplines, counselling, or other avenues of external support
- Following the procedures laid down in our whistleblowing, complaints and disciplinary procedures
- Co-operating fully with relevant statutory agencies

Section 7: Child-on-child abuse, including sexual violence and harassment

All staff working in or on behalf of the school maintain an attitude of '*it could happen here*' – this is especially important when considering child-on-child abuse. Even if there are no reports it does not mean it is not happening.

If staff have any concerns regarding child-on-child abuse, they should speak to the designated safeguarding lead or their deputy

The school recognises that children may abuse their peers physically, sexually, and emotionally. There is a zero tolerance approach to child-on-child abuse; abuse is abuse and this will not be tolerated or passed off as 'banter', 'just having a laugh', 'boys being boys' or 'part of growing up' as this can lead to a culture of unacceptable behaviours and an unsafe environment for children. *At Hollingwood Primary we are committed to follow the DDSCP Child-on-Child Abuse Strategy and recognise that the issue requires a partnership-wide strategic response. This is reflected in our school behaviour policy, staff behaviour (code of conduct) policy and other relevant policies.*

The setting will take child-on-child abuse as seriously as abuse perpetrated by an adult and address it through the same processes as any safeguarding issue. We will respond to all reports and concerns, including those that have happened outside of the school and / or online. In addition, we also recognise that children who abuse others and any other child affected by child-on-child abuse are also likely to have considerable welfare and safeguarding issues themselves.

What is child-on-child abuse?

- [Keeping Children Safe in Education](#) defines child-on-child abuse as most likely to include but not limited to:
 - Bullying (including cyberbullying, prejudice based and discriminatory bullying)
 - Abuse within intimate personal relationships between children (sometimes known as 'teenage relationship abuse')
 - Physical abuse such as hitting, kicking, shaking, biting, hair pulling or otherwise causing physical harm (this may include an online element which facilitates, threatens and /or encourages physical abuse)
 - Sexual violence, such as rape, assault by penetration and sexual assault (this may include an online element which facilitates, threatens and /or encourages sexual violence)
 - Sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse
 - Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party

- Consensual and non-consensual sharing of nudes and semi-nude images and or videos
- Upskirting⁶, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress, or alarm
- Initiating/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)
- It can also include causing someone to engage in extremist or radicalising behaviour
- Child-on-child abuse exists on a continuum and different forms of abuse may overlap
- It can affect any child/young person of any age and sex and can occur between two children or through a group of children abusing a single child or group of children
- Sometimes vulnerable children are targeted. For example:
 - Those living with domestic abuse or with intra-familial abuse in their histories
 - Young people in care
 - Those who have experienced bereavement through the loss of a parent, sibling, or friend
 - Black and minority ethnic children are under identified as victims but are over identified as perpetrators
 - There is recognition it is more likely that girls will be victims and boys are likely to be perpetrators. However, both girls and boys can experience child-on-child abuse, but they are likely to experience it differently e.g. girls being sexually touched/assaulted or boys being subject to homophobic taunts/initiation/hazing (rituals and other activities involving harassment, abuse or humiliation used as a way of initiating a person into a group)
 - Evidence also shows that children with SEND, and LGBT+ children are at greater risk
- It is influenced by the nature of the environments in which children/young people spend their time - home, school, peer group, online and community - and is built upon notions of power and consent. Power imbalances related to gender, social status within a group, intellectual ability, economic wealth, social marginalisation etc, can all be used to exert power over a peer
- Child-on-child abuse involves someone who abuses a 'vulnerability' or power imbalance to harm another and has the opportunity or is in an environment where this is possible
- While perpetrators of child-on-child abuse pose a risk to others, they are often victims of abuse themselves

Preventing child-on-child abuse

There is a whole school approach to preventing child-on-child abuse, including child-on-child sexual violence and sexual harassment; this forms part of the whole school approach to safeguarding. The school will seek to minimise the risk of child-on-child abuse by ensuring an approach that prepares learners for life in modern Britain. The establishment has a clear set of values and standards which are upheld and demonstrated throughout all aspects of school life.

The school provides a safe environment, promotes a culture of positive standards of behaviour, takes steps to address inappropriate behaviour, has effective systems in place where children can confidently raise concerns knowing they will be taken seriously and provides safeguarding through the curriculum via relationships education/relationships and sex education, online safety, and other curriculum opportunities. This may include targeted work with children identified as vulnerable or being at risk and developing risk assessment and targeted work with those identified as being a potential risk to others.

All staff understand the importance of challenging inappropriate behaviours between peers that are abusive in nature. Downplaying certain behaviours will not be tolerated or passed off. Staff will maintain an attitude of '*it could happen here*' and all inappropriate behaviour will be addressed.

The setting deals with a wide continuum of children's behaviour on a day-to-day basis and most cases will be dealt with via school-based processes. These are outlined in the following policies:

- Behaviour policy, including bullying/ online bullying and prejudice-based bullying and school/college screening, searching, and confiscating powers and how they will be used safely, and appropriately, including police strip searches

⁶ The Voyeurism (Offences) Act (2019) – upskirting is a criminal offence and anyone of any gender can be a victim

- Online safety policy and other associated issues, including sharing nudes and semi-nudes and extremist material
- Children who runaway or go missing
- Relationships education/ relationships and sex education

Systems for children to report abuse

Even if there are no reports, all staff understand it does not mean it is not happening; it may be the case that it is not being reported. We recognise that children may not find it easy to tell staff about the abuse, that certain children may have additional barriers to telling someone and children can show signs or act in ways they hope adults will notice or react to. In some cases, victims may make indirect reports via a friend or staff may overhear conversations. All staff recognise the indicators and signs of child-on-child abuse and know how to identify it.

See page 18 *Systems for children to report concerns and abuse* for information about the systems in place for children to confidently report abuse.

If staff have any concerns regarding child-on-child abuse, they should speak to the designated safeguarding lead or deputy

Action on concerns

Child-on-child abuse may be a one-off serious incident or an accumulation of incidents. Staff may be able to easily identify some behaviour/s as abusive however in some circumstances it may be less clear. In particular, reports of sexual violence and harassment are likely to be complex and require difficult professional decisions to be made, often quickly and under pressure. In all cases the initial response to a report is very important. Members of staff will take the concerns seriously and reassure the child that they will be supported and kept safe, regardless of how long it has taken them to come forward. If possible, reports should be managed with two members of staff present (preferably one being the designated safeguarding lead or a deputy), however this might not be possible in all cases. The victim will not be given the impression they are creating a problem or made to feel ashamed for making a report or their experience minimised. Abuse which has occurred online or outside of the school will be treated just as seriously as that which has occurred within the education environment.

Staff must follow *Section 6. Responding to concerns about a child's welfare* and discuss the concerns and seek advice from the designated safeguarding lead.

When an allegation is made by a pupil/student against another pupil/student, members of staff should consider if the issues raised indicate that the child and/or alleged perpetrator may have low level, emerging needs, complex/serious needs, or child protection concerns and follow the process outlined in Section 6. Responding to concerns about a child's welfare.

Considerations for cases where child-on-child abuse is a factor include:

- What are the wishes of victims in terms of how they want to proceed?
- What is the nature, extent and context of the behaviour including verbal, physical, sexual (including sharing of nudes/semi-nudes) and/or online abuse? Was there coercion, physical aggression, bullying, bribery or attempts to ensure secrecy? What was the time, location, duration, and frequency? Is the incident a one off or a sustained pattern of abuse? (Remember there may be other forms of abuse in addition to what has been reported) Were other children and /or adults involved? Has a crime been committed and/or have any harmful sexual behaviours been displayed?
- What is the child's age, development, capacity to understand and make decisions (including anything that might have had an impact on this e.g. coercion), and family and social circumstances? What is the nature of the relationship between the children involved? Are they in a current or previous intimate personal relationship, do they live in the same household or setting, attend the same school/college, classes, or transport?
- What are the relative chronological and developmental ages of the children? Does the victim or perpetrator have a disability or learning difficulty? Are there any differentials in power, social standing, or authority?

- Is the behaviour age appropriate or not? Does it involve inappropriate sexual knowledge or motivation?
- Are there any risks to the child victim or alleged perpetrator themselves and others e.g. other children in school/college, adult students, school/college staff, in the child's household (particularly siblings or other children related to the household), extended family, peer group or wider social network? Are there any links to child sexual exploitation, child criminal exploitation or gang related activity?

Immediate consideration should be given to how best to support and protect the victim and alleged perpetrator and any other children involved/impacted. Where the report involves rape and assault by penetration, the alleged perpetrator must be removed from any classes they share with the victim. There must also be careful consideration on how best to keep the victim and alleged perpetrator apart on school premises (including any before or after school activities) and on transport to and from the setting.

For all other reports of sexual violence and sexual harassment and forms of child-on-child abuse, the proximity of the victim and alleged perpetrator and considerations regarding shared classes, school/colleges premises and transport should be considered immediately.

All decisions will be made in the best interests of the children involved and should not be perceived to be a judgement on the guilt of the alleged perpetrator. In all cases, the initial report should be carefully evaluated on a case-by-case basis with the designated safeguarding lead taking a leading role and using their professional judgement, supported by other agencies, such as local authority children's social care and the police as required. The designated safeguarding lead will refer to relevant assessment tools and guidance as appropriate such as:

- [Keeping Children Safe in Education](#), part five
- [Sharing nudes and semi-nudes: advice for education settings working with children and young people](#)
- [Searching, screening and confiscation at school](#)
- [Stop it Now Sexual Behaviours Traffic Light Tool](#)
- [DDSCP Thresholds Document](#)
- [DDSCP Safeguarding Children Procedures](#), in particular Children who present a risk of harm to others and Online Safety and Internet Abuse procedures
- [When to call the police – guidance for schools and colleges](#)

Whenever there is an allegation of abuse, including concerns about sexual harassment and violence, made against a child, the designated safeguarding lead and other appropriate staff will draw together separate risk and needs assessments and action plans to support the victim and the alleged perpetrator. These will consider:

- The victim, especially their protection and support
- Whether there have been other victims
- The alleged perpetrator/s
- All the other children (and if appropriate adult students and staff) at the school, especially any actions that are needed to protect them from the perpetrator/s, or from future harms
- The time and location of the incident and any action required to make the location safer
- When information can be disclosed to staff and others, including the alleged perpetrator and parents/carers

Whenever local authority children's social care and/or the police are involved, the school will work in collaboration to ensure the best possible support and protection is provided for both the victim and the alleged perpetrator.

All reports of child-on-child abuse (including sexual harassment and/or sexual violence) will be recorded in the child's safeguarding/child protection file. This will include all decision making, risk and needs assessment and plans recorded in writing as outlined in Section 6.

Where appropriate incidents may be managed internally (low level needs), via early help (emerging needs) or through local authority children's social care (complex/serious needs or child protection concerns);

reports to the police will be run in parallel with children's social care as outlined in the Derby and Derbyshire multi-agency safeguarding [procedures](#), in particular [Children who Present a Risk of Harm to Others](#) and [Online Safety and Internet Abuse](#) procedures.

All risk and needs assessment and action plans whether internal or multi-agency will be reviewed and updated on a regular basis. If things do not improve or deteriorate the situation should be reconsidered.

The school uses the Contextual Safeguarding School [Beyond Referrals](#) Self-Assessment Toolkit & Guidance to self-assess our response to harmful sexual behaviour. All relevant policies will be updated to reflect the lessons learnt and consideration given to the wider cultural issues within the school/college that enabled the behaviour to occur.

Where the victim or alleged perpetrator transfers to another education setting, the designated safeguarding lead will ensure the new provider will be made aware of any on-going support needs (and will discuss this with the victim and where appropriate their parents, as to the most suitable way of doing this) as well as transferring the safeguarding/child protection file. In the case of the alleged perpetrator, where appropriate, this will also include potential risks to other children and staff. See Section 6. Responding to concerns about a child's welfare - record keeping.

Please see the schools policy on Child on Child Abuse.

Any suspicion or allegations that a child has been sexually abused or is likely to sexually abuse another child (or adult) or where there are concerns about any other form of abuse, a referral must be made immediately to local authority children's social care and where appropriate, the police

Section 8: Safer recruitment and selection of staff

The school uses best practice and has adopted robust recruitment procedures as outlined in [Keeping Children Safe in Education](#) (2024) to deter and prevent people who are suitable to working with children from applying, securing employment or volunteering opportunities in the school/college. We apply all appropriate measures for our staff, including volunteers, agency and third-party staff (supply staff) trainees/student teachers, governors/trustees, and contractors. This forms a vital part of the whole school approach to safeguarding and is an essential part of creating a safe environment for our learners.

Those involved with the recruitment and employment of our staff have received appropriate safer recruitment training and at least one person who conducts an interview has completed safer recruitment training.

Safer practice in recruitment means thinking about and including issues to do with child protection and safeguarding children at every stage of the process from advertising, job descriptions/person specifications, application forms, shortlisting, employment history and references, selection and pre-appointment vetting checks.

Everyone who works in the school, including volunteers and school governors will have appropriate Disclosure and Barring (DBS) and teacher status, teacher, and teacher prohibition checks or where appropriate GTCE sanctions and restrictions. Governors and Senior Leaders will also require section 128 checks.

Other checks that may be necessary for staff, volunteers, and others:

- **Individuals who have lived or worked outside the UK** – will undergo the same checks as all other staff in the school and further checks deemed appropriate to ensure suitability
- **Agency and third-party staff (supply staff)** - the school will obtain written notification from any agency or third-party organisation provider that they have carried out checks on an individual who will be working at the school that we would otherwise perform.
- **Contractors** - where the school uses contractors to provide services the contract will set out their safeguarding requirements.

- **Trainee/ student teachers** – applicants salaried by the school will undergo all necessary checks by the school. The initial teacher training provider will carry out necessary checks on fee funded trainee teachers and will provide written confirmation that these have been carried out and judged suitable to work with children.
- **Volunteers** - the school will ensure volunteers are appropriately supervised as outlined in [statutory guidance](#) on supervising the activities of workers and volunteers with children. In addition, risk assessments will be undertaken, and professional judgment/ experience used when deciding whether to obtain an enhanced DBS certificate for any volunteer not engaged in regulated activity. The details of the risk assessment will be recorded.

The school maintains a single central record of pre-appointment checks consistent with [Keeping Children Safe in Education](#) (2024).

See the school recruitment and selection policy/disclosure and barring (DBS) policy and supervision of volunteer's statement.

Visitors

The school premises provide a safe learning environment with secure access. We recognise there are different types of visitors, those in a professional capacity, children's relatives or others visiting for school activities or visitors via a third party and have processes in place to ensure they are suitable, are checked and monitored as appropriate.

We recognise the importance of allowing access for local authority children's social care to conduct, or to consider whether to conduct an assessment and that staff from other partner agencies may need to visit to see a child or young person to either safeguard or promote their welfare. To support our decision making about appropriate checks regarding any professional visitor we operate using guidance outlined in the [DDSCP Briefing Note - Professional Visitors to Schools](#). See school security and visitors policy.

External speakers/visitors

The school may ask external speakers or visitors to work with children or provide assemblies on subjects such as online safety, relationships/relationships and sex education and health education. On these occasions there will be an assessment of the educational value, the age appropriateness of what is going to be delivered and whether relevant checks will be required, and an assessment made of what will be appropriate supervision. There will also be an agreement made in advance of the session/s on how a safeguarding report should be dealt with by an external visitor. See school policy/agreement for visiting speaker's.

Alternative provision

The school continues to be responsible for any learner placed with an alternative provision provider. Learners in alternative provision often have complex needs and are vulnerable to additional risk of harm. We will ensure that the provider meets the needs of the learner and obtain written confirmation from the provider that appropriate safeguarding checks have been carried out on their staff and individuals working for the provider. The school also has arrangements in place to ensure attendance is monitored and that there are effective safeguarding arrangements within the provision

Use of school premises for non-school activities

Our school safeguarding arrangements will apply to all activities provided by the school under the direct supervision of school staff. Where activities are provided by another body, the governing body will seek assurance that the provider has appropriate safeguarding/child protection policies in place and ensure arrangements are in place to liaise with the school where appropriate. This applies regardless of whether or not the children who attend any of these services or activities are children on the school roll/attend the school. Safeguarding requirements are included in all lease/hire agreements.

Section 9: What staff should do if they have a safeguarding concern or an allegation about another member of staff or concerns about safeguarding practices within the school

As part of our whole school approach to safeguarding there are processes in place for continuous vigilance, maintaining an environment that deters and prevents abuse and challenges inappropriate behaviour. Our culture and environment support staff to discuss matters that concern them in the workplace and, where appropriate, outside the workplace which may have implications for the welfare and safety of children.

All concerns and or allegations about adults working in or on behalf of the school (including supply teachers, contractors, and volunteers) will be reported, recorded, and dealt with promptly and appropriately.

By doing so everyone in the school will:

- Create and embed a culture of openness, trust, and transparency
- Help to identify concerning, problematic or inappropriate behaviour at an early stage
- Minimise risk of abuse
- Ensure that school staff are clear about professional boundaries and act within these, in accordance with the ethos and value of the school/college.

The school/college recognise there are two levels of allegation/concern

1. Allegations that **may** meet the harms threshold
2. Allegations/concerns that **do not** meet the harms threshold, also known as 'low level concerns'

Our response to concerns/allegations is consistent with the DDSCP Safeguarding Children [Allegations against Staff, Carers and Volunteers](#) procedure and we also refer to the DDSCP Briefing Note: [Low-Level Concerns about Staff](#).

1. Allegations that may meet the harms threshold

This is where an allegation might indicate that a person would pose a risk of harm if they continue to work in their present position, or in any capacity with children in a school or college. Where it is alleged that anyone working in the establishment, including supply teachers, contractors and volunteers has:

- Behaved in a way that has harmed a child, or may have harmed a child and/or;
- Possibly committed a criminal offence against or related to a child and/or;
- Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; and/or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children.

This includes any behaviour that may have happened outside school and is known as transferable risk.

If you have concerns about another staff member

Staff who are concerned about the conduct of a colleague (including supply staff, contractors, and volunteers) must remember that the welfare of the child is paramount.

All concerns of poor practice or concerns about a child's welfare brought about by the behaviour of colleagues should be reported without delay to the headteacher. Where there are concerns allegations about the headteacher this should be referred to the chair of governors. In a situation where there is a conflict of interest in reporting the matter to the headteacher/principal this should be reported directly to the Local Authority Designated Officer (LADO). The member of staff should make a record which will include time, date, place of incident, persons present, what was witnessed, what was said etc; this should then be signed and dated. All concerns are logged on the online platform Safeguard.

Looking after the welfare of the child

Where a child has been harmed, or there is an immediate risk of harm to a child or if the situation is an emergency, local authority children's social care should be contacted and where appropriate the police. It is the designated safeguarding lead's responsibility to ensure the child is not at risk and refer cases of suspected abuse to children's social care.

For further information about how concerns which may meet the harms threshold will be investigated, recorded and managed, including non-recent allegations by a child and referrals to the Local Authority Designated Officer (LADO) see *Hollingwood Primary School* staff behaviour (code of conduct) policy, which incorporates low-level concerns, managing allegations against staff and whistleblowing. Expectations are set out in the Staff Handbook.

2. Concerns that do not meet the harm threshold

Allegation/concerns that do not meet the harms threshold are referred to as 'low-level concerns'. A low-level concern does not mean it is insignificant, rather that the behaviour towards the child does not meet the harm threshold as outlined above.

A low-level concern is any concern, no matter how small, that an adult working in or on behalf of the school/college may have acted in a way that is:

- Inconsistent with the staff behaviour (code of conduct) policy, including inappropriate conduct outside of work, or
- Does not meet the harm threshold or is not serious enough to consider a referral to the Local Authority Designated Officer (LADO)

The behaviour can exist on a wide spectrum. Further information about distinguishing expected and appropriate behaviour from concerning, problematic or inappropriate behaviour can be found in the school/college staff behaviour (code of conduct) policy.

Staff should share low-level concerns in confidence with the designated safeguarding lead and record the incidents on CPOMS alerting DSL team. All low level concerns will be dealt with in a timely way according to the nature of each particular low level concern.

Low-level concerns about the headteacher should be reported to the chair of governors.

Staff are also encouraged to self-refer where they have found themselves in a situation which could be misinterpreted, might appear compromising to others and/or on reflection they believe they have behaved in a way that they consider falls below the expected professional standards.

The headteacher will be the decision maker in respect of all low-level concerns; however this may be undertaken in collaboration with the designated safeguarding lead.

Reports about supply staff or contractors will be notified to their employers.

All low-level concerns will be recorded in writing to include details of the concern, the context and the action taken. For further information about the procedure for recording and responding to low-level concerns see school/college staff behaviour (code of conduct) policy.

Concerns about safeguarding practices within the school/college

All staff are encouraged to raise concerns about poor or unsafe practice and potential failures in the school/college safeguarding regime. These concerns will be taken seriously by the senior leadership team.

For information about how to raise concerns with the senior leadership team or other channels See staff behaviour (code of conduct) policy, which incorporates the whistleblowing routes available to staff.

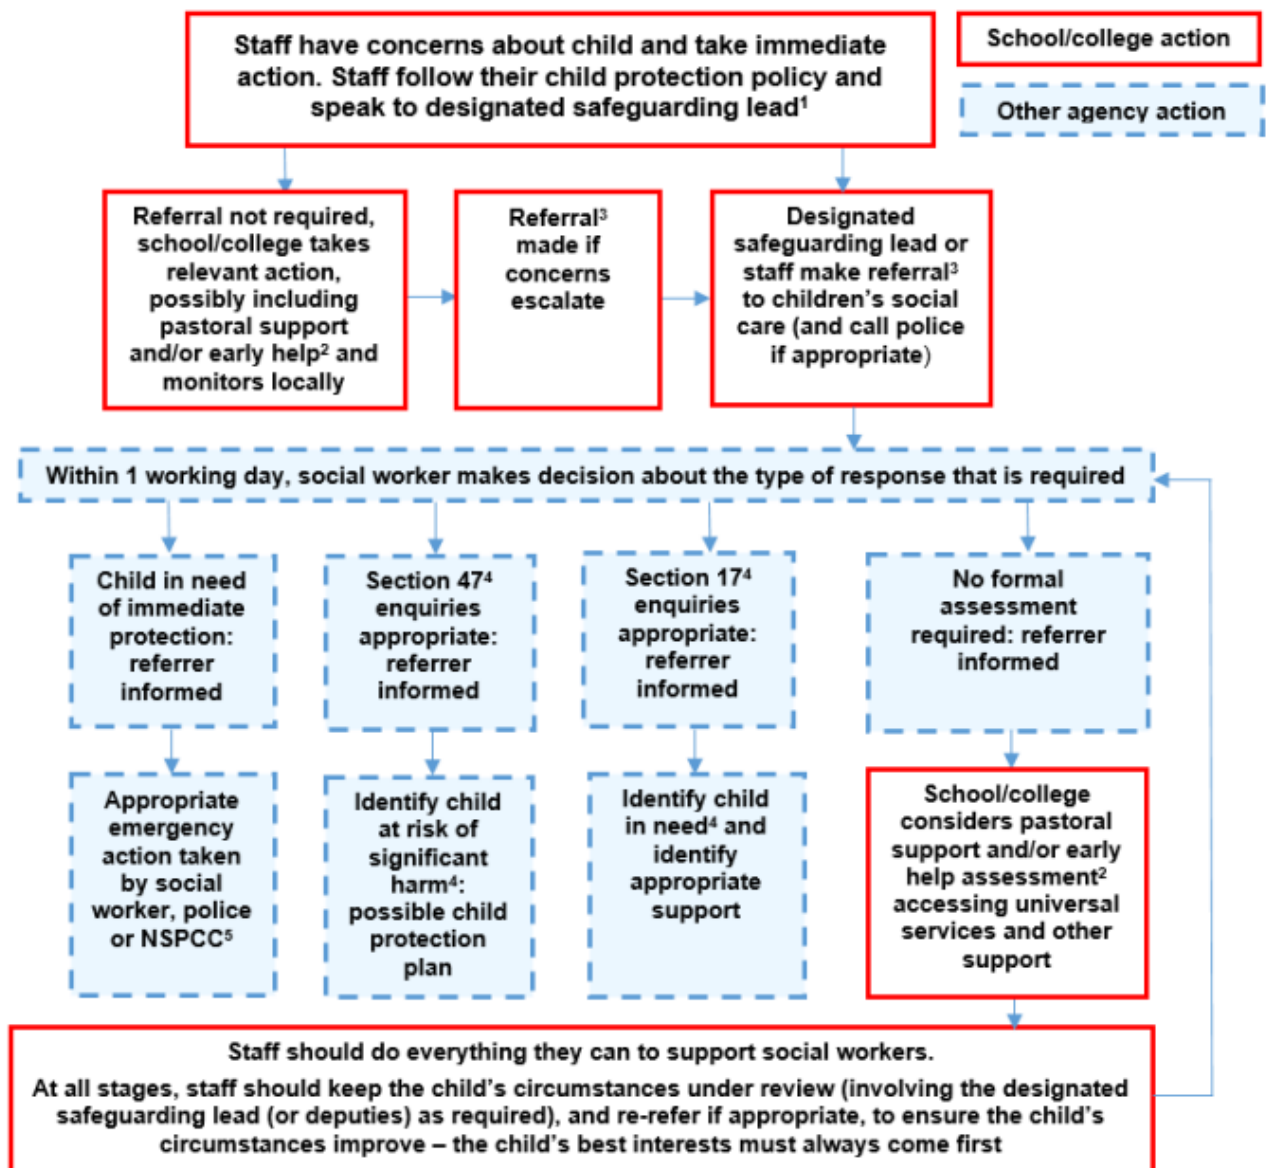

All concerns should be logged using CPOMS. Where support staff do not have CPOMS accounts, the following Concerns form will be completed and shared with the Designated Safeguarding Lead who will upload to CPOMS.

CHILD PROTECTION - CAUSE FOR CONCERN / INCIDENT FORM

- If you have concerns about a child, complete this form / discuss the concerns with the CPLT as soon as possible. (Angela Huthart and in her absence Lois Clarke or Jade Thirkell)
- If you are concerned about an injury e.g. a bruise, draw a sketch and be specific about the size, colour and position of the bruise on the body.
- If a child has made a disclosure, do not promise to keep it a secret. Tell the CPLT immediately and write down everything the child has told you. DO NOT question the child unless you have received specific training.

CONFIDENTIALITY IS CRUCIAL AT ALL STAGES

Child's Name:	DOB:	
Address:		
Telephone Number:		
Concern / Incident / Disclosure (include date, time, location and situation)		
Date concern noted:		
Staff member's signature		
Date passed on to DSL:		
Action Taken:		
Date:	Time:	Signature: Print Name:

¹ In cases which also involve a concern or an allegation of abuse against a staff member, see Part four of this guidance.

² Early help means providing support as soon as a problem emerges at any point in a child's life. Where a child would benefit from co-ordinated early help, an early help inter-agency assessment should be arranged. Chapter one of [Working Together to Safeguard Children](#) provides detailed guidance on the early help process.

³ Referrals should follow the process set out in the local threshold document and local protocol for assessment. Chapter one of [Working Together to Safeguard Children](#).

⁴ Under the Children Act 1989, local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under section 17 of the Children Act 1989. Under section 47 of the Children Act 1989, where a local authority has reasonable cause to suspect that a child is suffering or likely to suffer significant harm, it has a duty to make enquiries to decide whether to take action to safeguard or promote the child's welfare. Full details are in Chapter one of [Working Together to Safeguard Children](#).

⁵ This could include applying for an Emergency Protection Order (EPO).

1. Remember that the UK General Data Protection Regulation (UK GDPR), Data Protection Act 2018 and human rights law are not barriers to justified information sharing, but provide a framework to ensure that personal information about living individuals is shared appropriately.
2. Be open and honest with the individual (and/or their family where appropriate) from the outset about why, what, how and with whom information will, or could be shared, and seek their agreement, unless it is unsafe or inappropriate to do so.
3. Seek advice from other practitioners, or your information governance lead, if you are in any doubt about sharing the information concerned, without disclosing the identity of the individual where possible.
4. Where possible, share information with consent, and where possible, respect the wishes of those who do not consent to having their information shared. Under the UK GDPR and Data Protection Act 2018 you may share information without consent if, in your judgement, there is a lawful basis to do so, such as where safety may be at risk. You will need to base your judgement on the facts of the case. When you are sharing or requesting personal information from someone, be clear of the basis upon which you are doing so. Where you do not have consent, be mindful that an individual might not expect information to be shared.
5. Consider safety and well-being: base your information sharing decisions on considerations of the safety and well-being of the individual and others who may be affected by their actions.
6. Necessary, proportionate, relevant, adequate, accurate, timely and secure: ensure that the information you share is necessary for the purpose for which you are sharing it, is shared only with those individuals who need to have it, is accurate and up-to-date, is shared in a timely fashion, and is shared securely (see principles).
7. Keep a record of your decision and the reasons for it – whether it is to share information or not. If you decide to share, then record what you have shared, with whom and for what purpose.
